

Lost Pet

Kachina

Breed: Unknown

Gender: Unknown

Age: Adult

Reward: yes

Location: Asheville, E Chestnut / Charlotte / Liberty / Washington area

Description: Very long cat, super friendly, well loved. Has a high pitched squeaky meow & a funny repetitive sneeze. He is male but can easily be mistaken for a female as he has no equipment whatsoever down there. When he disappeared he had a black leather collar with embroidered flowers on it with a tag that had my name, his name, and my contact info. He is very much loved & missed deeply!!
