

Found Pet

Breed: Mixed Breed

Gender: Female

Age: Baby

Reward:

Location: Saluda, Green River Cove Rd

Description: a young (maybe a year or younger), female that was found on Green River Cove Rd Thursday, February 1st around 12pm. She is very well behaved and knows sit already. She is wearing a collar with no tags and we took her to a vet to see if she was microchipped, but she was not. We do not wish to drop her off at the shelter and plan to keep her until her current owners can claim her or we find a suitable home for her. If you need any additional information, please let me know.
