

Lost Pet

Trucker

Breed: Mixed Breed

Gender: Male

Age: Teenager

Reward: no

Location: Hendersonville, 3590 Willow Road

Description: Trucker is a 10 month old, mix, wearing a new black leather collar with tags from the Greenville County Animal Care center. He may be dragging an eight-foot flat green parachute cord, still hooked to his collar, near Willow Road, below Champion Hills entrance. I just brought him home yesterday. They told me he had an injured left rear leg that may need surgery and he is on pain medication. He is very shy, meek, and scared, but not at all aggressive. I didn't realize what a "flight-risk" he was until I carried him outside for some sun and the leash came untied. Then he took off like a rabbit! He must weigh about 40 pounds. He is micro-chipped and tagged. Please call me if you see him or can capture him! Thank you very much.
