Papa

Breed: Domestic Short Hair
Gender: Male
Age: Adult
Reward:
Location: Sylva, 263 Buchanan Loop Rd
Description: Name: Papa
Age: appx. 3-5 years
Sex: Neutered male
Size: appx. 10 lbs

Markings/Characteristics: grey tabby with white face & underside; his left ear was tipped when he was neutered through a TNR program.

LAST SEEN: evening of Saturday, July 12th at Buchanan Loop Rd, Sylva NC (off Webster Rd)

Mama and Papa were strays that I looked after for a couple years at my house in Durham, NC. I moved back to Sylva on July 9th, and I brought

Mama and Papa with me because they had become pets. The kitties have been kept indoors in a laundry room until they acclimated to their new surroundings. Unfortunately, we had no idea they could open the very large, heavy window that is difficult for even us to open. Somehow Papa managed to push the window open enough so he could tear a hole in the screen and escape. Mama soon followed him. Mama and Papa are very far from anything familiar, and they are terrified. PLEASE contact us with any sightings, but DO NOT attempt to approach or catch them - you will only scare them and cause them to run off again. THANK YOU!
