

Lost Pet

Clover

Breed: Other

Gender: Female

Age: Teenager

Reward: yes

Location: Alexander, 207 Harold Sluder Rd

Description: Last Friday our 6 month old Nigerian dwarf bottle fed doeling vanished from our yard. We have had her since birth and had to keep her in our house because she was a premie. We have searched our property with no luck. She has never escaped our yard before. She is very vocal and friendly, she answers to the name Clover. We miss her terribly and would love any information on her whereabouts and help in returning her to our family. Our children miss her and look for her everywhere. She went missing from Harold Sluder Rd in Alexander. Please call, text or email any time. My number is 8287767357 and my husband's number is 8282068408. Thanks for your time!
