

Lost Pet

Puss

Breed: Mixed Breed

Gender: Male

Age: Adult

Reward:

Location: Hendersonville , 34 Haynes Blvd

Description: We moved from RI to NC just over a week ago and he was doing fine. He is very friendly, but might be a little timid at first. He is micro chipped. He is also best friends with our dog, and the dog is missing him as much as we are. His front left paw is a little bent and crooked. We think he may be broke it as a kitten. He is roughly 8 years old. We rescued him two years ago.
